WEBSITE AND OPERATIONS REVIEW

What shippers see before they call you

A review of your website and how loads get booked today.

PREPARED FOR KESTREL VALLEY

FICTIONAL DEMO PREPARED BY NORTHWIND STUDIO

WHAT WE UNDERSTOOD

Fourteen tankers, one phone line

Bulk fuel and food-grade liquid haulage across the Pacific Northwest since 2011.

2011
Founded

14
Tankers

45
Website score /100

YOUR SCORECARD

45/100, mostly lost on three things

NEEDS ATTENTION

60+ checks across 8 areas

Performance	60	SEO	23
Mobile & UX	66	Trust	21
Conversion	40	Social	40
AI Search (GEO)	50	Ops	50

Tracking promised, not shown

Shippers find a phone number and office hours.

A very heavy homepage

7.5 MB downloads before it settles.

Phone number can't be tapped

Booking from a phone means copying it by hand.

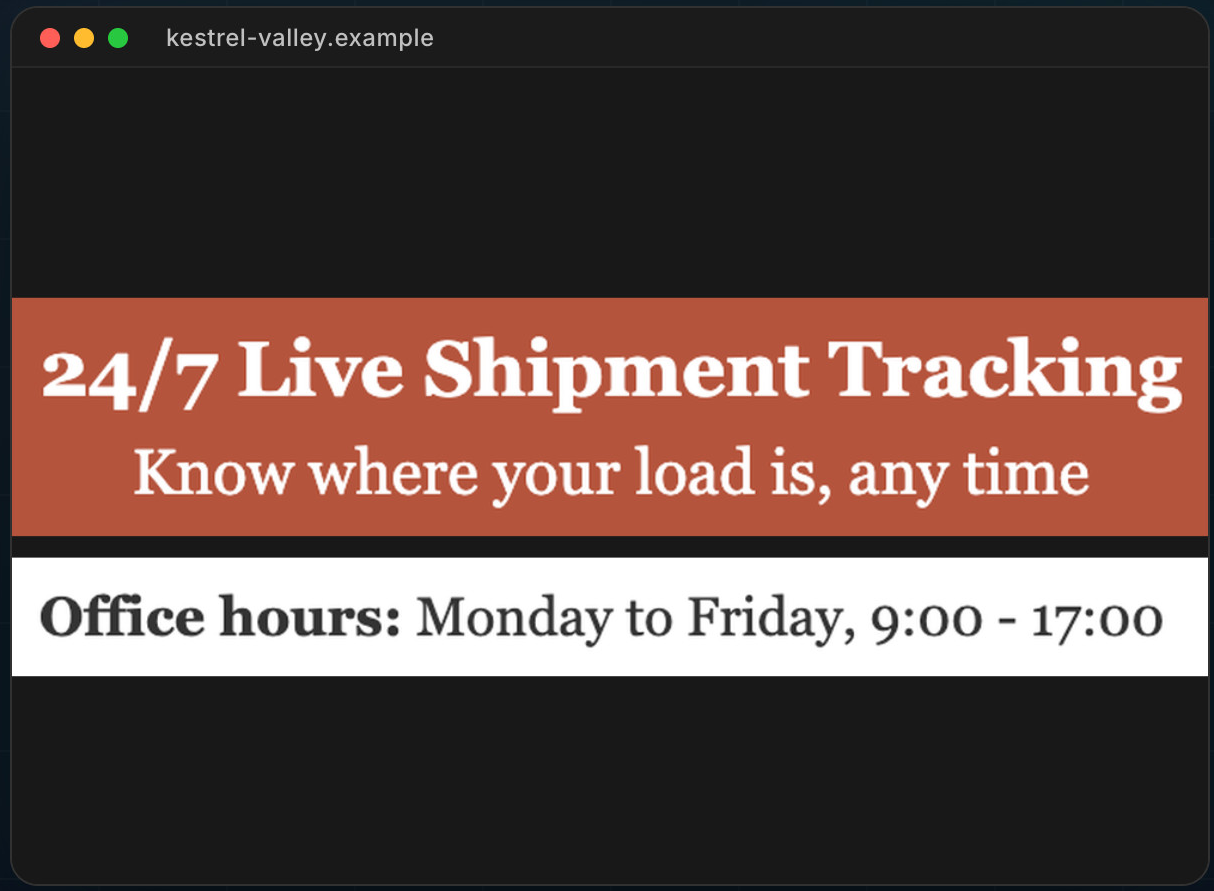

GAP 01 · OPERATIONS

"24/7 tracking" or 9 to 5?

Your homepage and your contact page promise different things.

BUSINESS IMPACT

Shippers notice, and call dispatch to check.

Top: homepage. Bottom: contact page.

GAP 02 · SPEED

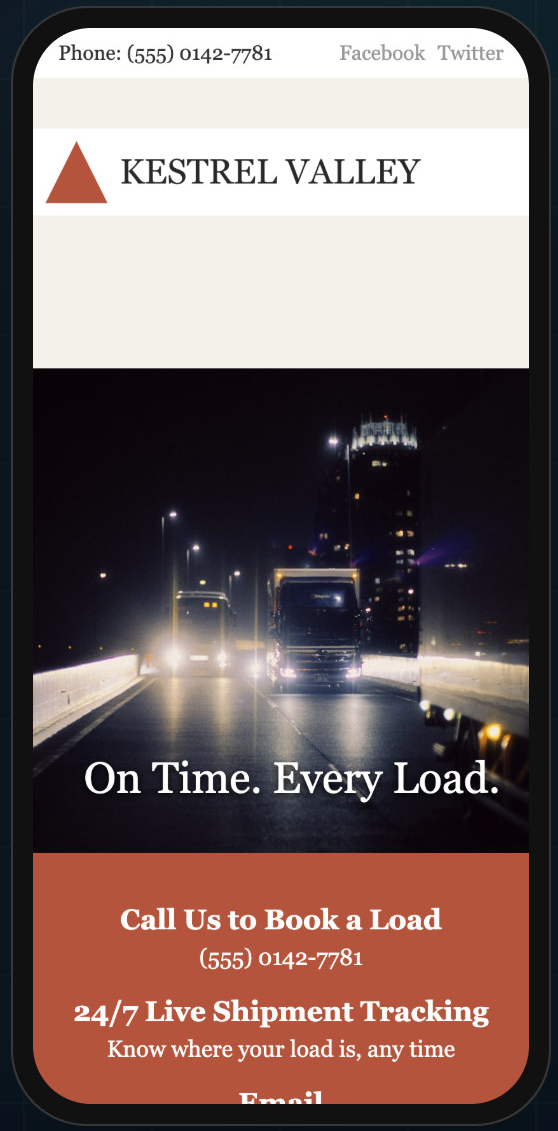

One photo slows every visit

The homepage hero image is an uncompressed PNG.

7.5 MB downloaded before the page settles

BUSINESS IMPACT

On mobile data, shippers wait or leave.

GAP 03 · MOBILE

The phone number can't be tapped

On a phone, booking a load means copying the number by hand.

BUSINESS IMPACT

Your main way to book is the hardest one to use.

OUR RECOMMENDATION

NW Dispatch

STARTER

A customer portal, live in four weeks

Shippers check load status themselves instead of calling dispatch.

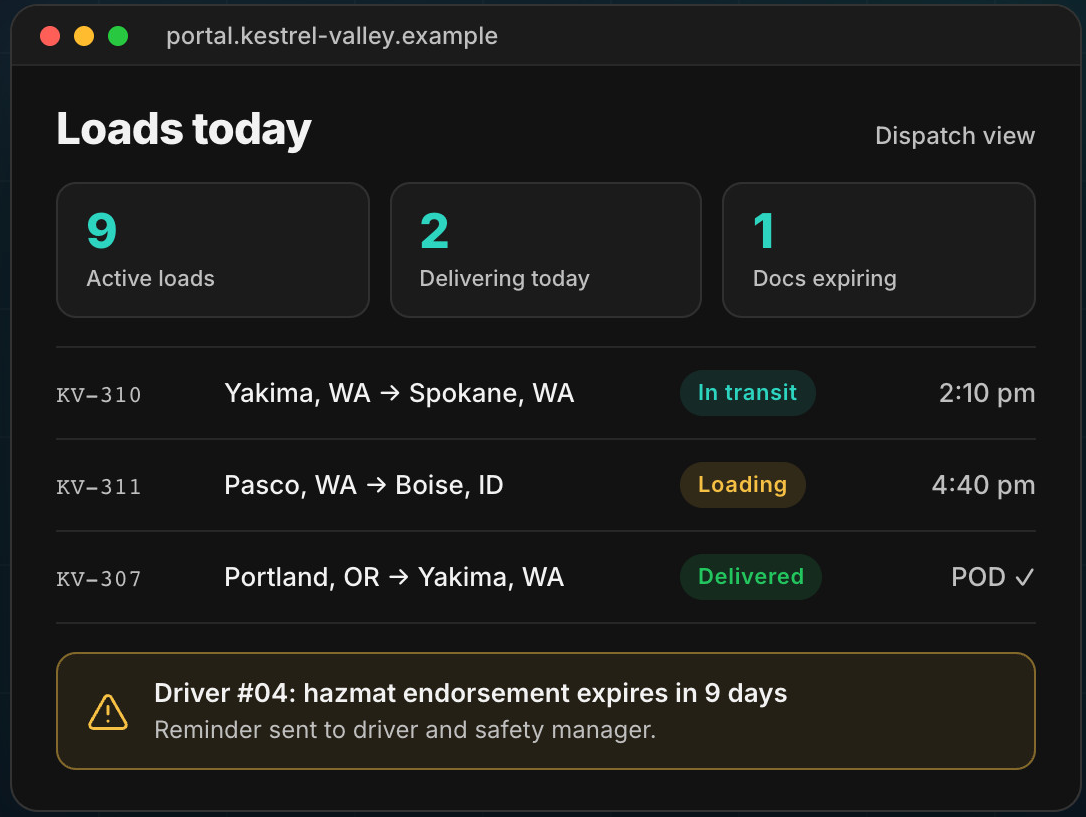

Live in 4 weeks or the setup fee is refunded

$3,000
setup (demo price)

4
weeks to live

4
modules

Later: website rebuild, then search visibility

Illustrative mockup

Live load status

Driver documents

Quote requests

Logins & roles
